DETAILED ACTION

Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:
 - a. Claims 1 - 6 are allowable over the Prior Art of Record because it fails to teach or suggest a combined carpenter's level and square device and method comprising a first section having a flat surface with a portion that forms a 45 degree angle with the centerline, a second section having a flat surface with a portion that forms a 135 degree angle with said second section centerline and a means for coupling that joins said flat surfaces and allows said sections to rotate about an axis that extends perpendicular to said surfaces and passes through a point located on said centerlines of said sections in combination with the remaining limitations of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
